SUMMARY

With **4.7 years** of experience and a strong background in **UI and web development**,
I possess a solid foundation in **front-end** technologies, including **HTML5**, **CSS3**, and **JavaScript**,
and basic experience and knowledge of the popular front-end framework **React.js**.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript ES6	**Frontend Framework:** React JS
Styling & Preprocessing: SASS/SCSS, LESS	**Version Control:** Git, Github, SVN
Responsive Design: Bootstrap, Media Queries	**Package Managers:** NPM, Yarn
APIs: RESTful APIs, AJAX (Both Basics)	**CI/CD:** Jenkins, Travis CI (Basics)
UI/UX Design: PSD, Adobe Illustrator, Figma(Basics)	
Other Tools: VS Code, Dreamweaver, Veeva CRM, Salesforce, Prettier, Chrome Dev tools	

WORK EXPERIENCE (4.7 Years)

Indegene Private Limited - Web Developer   **June 2021 - Sep 2023**

Pfizer EMCE PMO TEAM

- Worked on the **i-Detailer** and **RTE** UI development as per **Figma** design and
  achieved performance optimization by using code **splitting**, **lazy loading**, and
  minification.
- Migrating to single-page applications (**SPA**) using **React JS** components based on **PSD** files.
- Deployment to **VEEVA CRM** using **SVN** and **Salesforce** (PforceRx) and **GCMA vault**
  for the **Pfizer EMCE** unit of Pfizer AFME, LATAM, and APAC region clients.
- **Training** and **knowledge transfer** for the newly joined employee.

Skill Santa – Frontend Developer　　　　　**June 2020 - May 2021**

Camp K12

- Developing **web pages** for the education platform and training purposes for teaching the K-12 Students using HTML, CSS, and Javascript.
- Converting **wireframes** into web pages, performing **unit tests,** and **functionality tests** before moving to **QA**.
- Created Logical **AI chatbots** using JavaScript and JQuery.
- Short-term coordination of VR and AI project teams on the **existing CI/CD pipelines**, ensuring seamless integration and deployment of web applications.

Inncrewin Technologies Pvt Ltd　　　　**October 2018 - December 2019**

Software Engineer Trainee

- UI creation and integration to the backend pages as per the **Agile/Scrum** development methodologies.
- Making basic changes in databases like **CRUD** operations.
- Working knowledge in AJAX, JSON, and jQuery.
- Utilized **Jenkins** for automated builds, tests, and deployment processes, reducing manual errors and enhancing overall efficiency.

EDUCATION

B.tech - Computer Science Engineering (**CSE**) – **2017**

College of Engineering Thalassery (**CUSAT**) – **7.4** CGPA
